## About me

*NUOVO Experienced photographer, looking for a course to improve my photography knowledge, I had the opportunity to attend **photography workshop in Tuscany**, from 16 till 23 May 2009. The region is wonderful and people always very welcoming.*

*On that occasion, exercises were focused on the realisation of a **travel book** (still a work-in-progress). Very quickly different topics have come along one on top of the other and that has changed my approach (to what I was conceiving).*

*Here are the most representative pictures of my work.*
